

Guide for students: How to create an IB account

An IB account is a new way to log in to IB websites. **You use your email address and a password you create.** You will not use a personal code and PIN anymore.

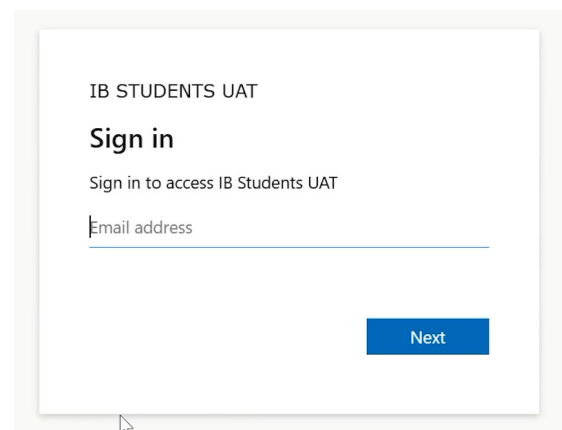

Creating your IB account

You will get an email from the IB with steps to set up your account. The sender will be no-reply@ibo.org. Follow the steps in the email:

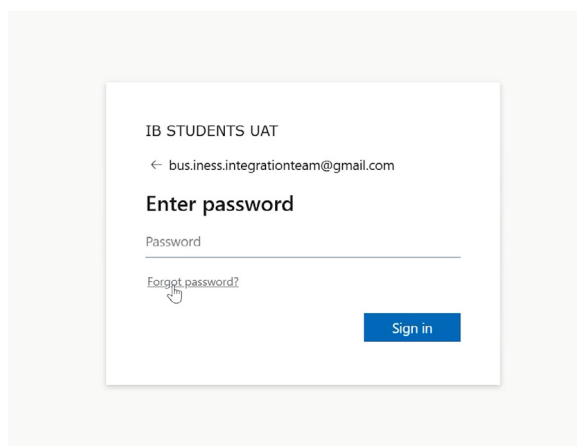

Step 1. Select “Forgot password”.

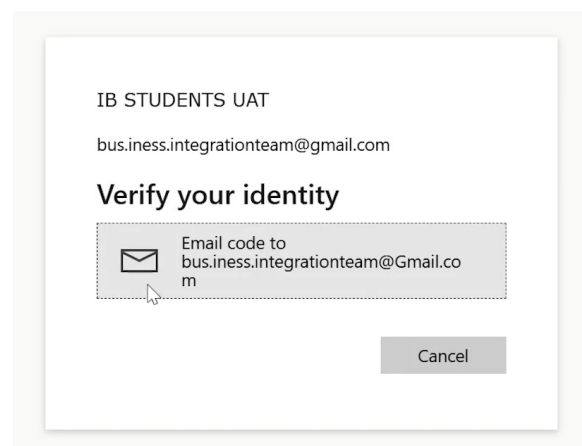

Step 2. Type your email address, then select “Next”.

Step 3. On the “Enter password” page, select “Forgot password” again.

Step 4. To confirm it's you, select “Email code to youremail@email.com”.

Step 5. You will get a one-time code by email. Enter the code.

Questions

I didn't get the email. What should I do?

1. Check that you used the right email address.
2. Check your spam/junk folder.
3. If it's still not there, ask your DP/CP Coordinator to send it again.

After I graduate, can I still check my results?

Yes. As long as you can access your email, you can use your email address and password to log in to the Candidate site. If needed, you can change your email address from a school email to a personal email.

How can I change my email?

In the Candidate site, select **your username** in the top right corner, then go to **Profile**. You can change your email address there. Remember to select **Save**.
